	Utility	Community Solar
100% Local Solar Energy	~	★
Customers can SAVE \$\$ AND GO GREEN!	~	★
Access to energy suppliers in deregulated areas.	★	★
User-friendly consolidated billing**	★	★

Community Solar

EVERYTHING YOU NEED TO KNOW ABOUT OUR NEW AND EXCITING SOLAR OPTION!

HOW DOES IT WORK?

Here's how you can take advantage of guaranteed savings & access clean energy!

JOIN THE MOVEMENT

We partner with solar developers and connect customers to local solar farms so they don't have to install their own panels.

SAVE THE PLANET

The more customers sign up, the more clean energy will flow into your local power supply, creating a demand for more clean energy.

SAVE SOME MONEY

When the solar farm generates electricity, customers get credits back on their utility bills, saving money on electricity.

WHAT YOU NEED TO KNOW!

Here's everything you need to know about our Community Solar offering in order to make a decision to start saving today!

- **CLEAN ENERGY AT A DISCOUNT!**
- **CONSOLIDATED BILLING!**
- **NO CREDIT CHECKS!**
- **NO CONTRACT CANCEL ANYTIME!**
- **NO DIRECT-TO-UTILITY RELATIONSHIP REQUIRED!**

Community Solar customers must have an active utility account in good standing to be eligible for Community Solar with Viv. Customers will provide Viv's Community Solar Partner with authorization to access their data and manage their utility account. Customers required to enroll in autopay option for payment direct to community solar partner. **Consolidated billing is available in most service areas.**
